This year's Forum will include a performance of *A Sense of Wonder*, a play based on the life and works of Rachel Carson.

A Sense of Wonder, written and performed by Kaiulani Lee, has been touring the United States for over ten years. The play has been the centerpiece of regional and national conferences on conservation, education, journalism, and the environment.

The play is the story of one woman's love for the natural world and her fight to defend it. It is the story of the extremely private Rachel Carson thrust into the role of controversial public figure.
