Changing Course in a Changing Climate: Solutions for health and the environment

Beyond Pesticides' 25th National Pesticide Forum

Loyola University, Chicago, IL

June 1-3, 2007

Thank you for participating in the 25th National Pesticide Forum. We hope this meeting gave you the opportunity to discuss pesticide issues of importance to you. It is our goal to work towards developing policies and practices that will protect the environment and human health. Please help in evaluating this year's Forum by completing this form, keeping the above-mentioned goals in mind, and returning it to the appropriate box on the Beyond Pesticides publication table or by mailing or faxing it to Beyond Pesticides.

III. To help us plan for future conferences, please provide your feedback on the Forum in general:

A. This is a conference that should be held: every year every two years every five years

B. I would travel out of state to attend this conference in the future: yes no

- C. In terms of conference focus, the central theme:
- a) should be discussed in every workshop, plenary and keynote.
 - b) should be discussed in plenary sessions, but should cover a wide variety of topics in the workshops.
 - c) is not important. I prefer a general conference that covers many topics.
