

PesticideFreeLawns.org :30 PSA “Organic Lawns Now”

Seems everybody's going organic, including lawn care. Did you know communities across the country are converting their lawns, playgrounds and playing fields to an organic care program? And its working. You can safely control weeds and pests and have a beautiful lawn. Your kids, pets and water supplies will be safer, and your neighbors will be green with envy. Oh, and in the long run, organic lawn care is cheaper than doing it the conventional way. Switch to organic lawn care today. Find out how. Visit PesticideFreeLawns.org, the folks who brought you this public service message. Check out PesticideFreeLawns.org today!
