

Pesticide-Free Lawn Door Hangers

It's not always easy to talk to people about pesticides. It can be especially awkward when the time you think of it most is right at the moment that your neighbor has a sprayer in his hand or a ChemLawn truck in the driveway.

The new Safe Lawn Door-Hanger helps concerned neighbors spread the word about lawn pesticides and alternatives with minimal confrontation. It can be used as an icebreaker for conversation or just hung on the front door or other visible spot of the homes you know or suspect use pesticides. The information on the hanger leads them to helpful resources on safe lawn care from every region of the country.

Ordering hardcopies: The first 25 door-hangers are free! We ask for a donation to cover postage. To order up to 25 door hangers send an email **with your address** and number of hangers you would like to

info@beyondpesticides.org. For more than 25, you can [order online](#), or send a check specifying the number you would like to: Beyond Pesticides, 701 E Street SE #200, Washington, DC 20003, or call 202-543-5450. All rates below include shipping.

First 25 are free, 50 for \$15, 75 for \$22.00, 100 for \$30.00, 500 for \$130.00.
