Plains Target States

Target states in this region for the 2026 legislative session include [Kansas](#) and [Oklahoma](#).

For states not currently referenced on this page, more information will be published as bills are confirmed/introduced—stay tuned!

Kansas

History of Failure-to-Warn in this State

A bill was introduced in the Kansas state legislature to eliminate failure-to-warn liability claims for Kansas residents who are exposed to toxic pesticides and are seeking justice.

Status: The Kansas House voted in favor **[81-36-8]** of **HB 2476, as amended**, on Thursday, January 29, 2026, after the [House Agriculture and Natural Resources Committee](#) voted HB 2476 out of committee on **Tuesday, January 27**, along party lines. The [Senate Agriculture Committee](#) held a hearing on **Tuesday, March 10, at 8:30 am CT**, according to the latest [agenda](#), however it was **not voted on**.

HB 2476 did not move out of committee, effectively defeating the bill. However, [SB 390](#)—a newly introduced bill on restricting food additives in school meals—was amended to include the pesticide liability shield on March 17, 2026. A vote is expected on the House floor at a moment's notice!

Oklahoma

History of Failure-to-Warn in this State

A bill is likely to move forward in the Oklahoma state legislature to eliminate failure-to-warn liability claims for Oklahoma residents who are exposed to toxic pesticides and are seeking justice.

See here for the pesticide immunity bill text, [HB 1755/SB 1078](#), in the Oklahoma legislature. See [here](#)

for the amended version of the House bill text as of **February 28**. See [here](#) for the most recent version of the Senate bill text as of **March 4**.

Status: HB 1755 was referred to the [House Rules Committee](#) on March 4, 2025, after a public hearing in the House Energy and Natural Resources Committee was withdrawn from the record on the same day. The bill sits in the House Rules Committee with a hearing likely to move forward **in early February 2026**.

The Oklahoma Senate could hear SB 1078 this week! The bill passed out of the Senate Agriculture and Wildlife Committee and is **now up for a floor vote at a moment's notice**.
